

EDITA MOTUZĖ

Frontend developer

I'm passionate about crafting beautiful and functional web experiences, I love bringing ideas to life and solving complex problems.

EDUCATION

CodeAcademy - *Frontend development course* 2021 - 2022

Lithuanian University of Health Sciences - *Master's degree, Public Health Management* 2018 - 2020

Lithuanian University of Health Sciences - *Bachelor's degree, Public Health* 2014 - 2018

EXPERIENCE

Cognizant - Frontend Developer (internship)
October 2022 - January 2023

Created website for "Sourcery Academy". I gained hands-on experience with Agile, Git, React, HTML, CSS, SCSS, accessibility, and testing, contributing to both the technical and project management aspects of frontend development.

Kauno miesto savivaldybės visuomenės sveikatos biuras - Public Health Specialist and Public procurement specialist
August 2018 - October 2023

I managed public health projects by planning, coordinating resources, and overseeing budgets. I ensured project objectives were met on time and handled any challenges that arose.

Kauno lopšelis darželis Liepaitė- Dietitian
August 2017 - December 2019

I developed and managed nutrition programs for young children, effectively communicating dietary information in an understandable way for both children and their parents.
